

Solaris 7200 Series

An exceptional choice for contemporary homes

7200 Series
1 3/4" Glazed
Aluminum Sections

Modern, Beauty, Safety

The Hörmann Solaris Collection provides a modern look and maximizes the natural light in any garage. The 1 3/4" thick high quality glazing frames in anodized aluminum and wide range of design options have proven a winning combination designed for strength and durability.

Rust proof, smooth and sleek satin finish of clear anodized aluminum glazing frame **enhances the beauty of contemporary design** while providing years of trouble-free performance.

Deep tongue and groove section joint contribute to the door's **excellent strength**. A plethora of high quality seals, spacers and retainers ensure **maximum protection against outside elements** while keeping your garage well insulated.

The bottom weather seal **keeps out wind, rain, debris and other elements** for added energy savings.

Choose your own design

Clear Anodized Aluminum

Insulated Aluminum Laminate

Polyurethane Insulated Steel Section

Hörmann Exclusive

FingerGuard™ Pinch Resistant

The FingerGuard™ section joint and hinges provide airtight seal and prevent finger injuries inside and outside.

Top weather seal

Hörmann's optional top weather seal is made of high quality material to provide an extra peace of mind

Between Section & Glazing Seals

Factory installed between section weather seal and glazing seal offer maximum protection from the outside elements while further enhancing the insulation properties of a door.

Choose the color which best suits your home

**Just a few of unlimited color options available using Hörmann Galaxy Paint System*
